

The Benefits Of Your Safety & Savings Plan[™]

Front-Of-The-Line Service

When you need service, you want it fast! No waiting for days to get your home fixed! If you have no heat, no cooling or no power we guarantee we will arrive to your home within 24 hours.

No Service Fee

Our highly trained technicians are dispatched to your home in a warehouse on wheels, stocked with thousands of parts. It's not inexpensive providing a high level, time saving service, which is why we have a service fee. However, as a safety and savings plan member, it's waived for you during normal business hours and reduced 10% after hours and weekends.

Big Discounts On Service

Receive up to 15% discounts on products, services and repairs needed to keep your home and family safe and comfortable.

Double The Warranty On All Repairs

All of our clients receive a one-year warranty on all repairs. As long as you are a Safety and Savings Plan member, you will receive double the protection! That's a two-year warranty on all of your repairs! And there's no service fee.

Exclusive Specials

From time to time, you'll also be able to take advantage of special offers and exclusive discounts available only to our Safety and Savings Plan members!

A Home-Value Booster

Your Safety and Savings Plan is also transferable to a new owner if you sell your home, and the peace of mind that it brings is a huge selling point! Or, it can move with you if you stay in our service area!

Electrical Safety Inspection

Your family's safety is our top priority. Your electrical system can change considerably and even destabilize over the course of 365 days of use. That's why you will receive a Whole-House, Electrical Safety Inspection every year that you are a plan member. You want to stop any potential problems before they become a hazard!
(Included with Electrical Safety & Savings Plan)

Annual Maintenance and Tune-Up

You want your system to be safe, reliable and ready for the next heating or cooling season. We will test, clean, tune and provide a written report of your system each year you are a Safety and Savings Plan member!
(Included with Heating and/or Cooling Safety & Savings Plans)
